RICH UHRICH COINS

Rich Uhrich Rare U.S. Coins Inc.'s Newsletter

August, 2008

Greetings!

This newsletter is our new way to let you know about our new purchases, and also provide more information than in our previous e-mails. Please let us know what you think about it. If you know someone else who might like to see it, feel free to forward this e-mail. And if you aren't on our mailing list, you can sign up for it at the bottom right corner of this newsletter.

WHAT'S NEW

At ANA, Mid-America, and other venues, we acquired over 550 new coins for our website, including a high-grade but relatively affordable example of the 1792 half disme.

We have listed some of the new purchases in the "NEW COINS" column at right. All of our coins are listed on our website although the new purchases do not have pictures yet.

If you haven't received one of our storecards yet, which includes the obverse of the 1823/2 Eliasberg AU-50 quarter, it is available free with any order (one per customer please). The storecard is silver-plated zinc, has a reeded edge, is 27 mm in diameter, which is appx. the same size as the large size Bust Quarters, and it was designed and manufactured by the Patrick Mint.

Rich Uhrich interviewed by CoinLink: (see paragraphs 7 and 14)

ROAD REPORT

The Baltimore ANA Convention has just concluded, and we had record sales, surpassing both the Milwaukee and Denver ANA Conventions combined! Both Seated Dollars and Bust Quarters series are very hot! Seated Dollars look like a good value for people who appreciate their scarcity. In fact, there are 41 dates of Morgan Dollars that have mintages higher than the entire 1840 - 1873 run of Seated Dollars, which is appx. 6.5 million. Bust Quarters have seen more collector interest for about the last year, and the recently released book "Early United States Quarters 1796 - 1838" by Steve Tompkins is expected to result in even more interest. The book, by the way, has great photos of every variety, making attributions much easier, plus a lot of information in its 400 pages. We do have some books on order and when we receive them, we will offer them on our website.

At ANA, we seemed to be busy at our table for the entire show, often with a line of people waiting to see our coins. We were so busy that someone on the PCGS message board wondered if we would have any coins left at the end of the show! We also were happy to meet many of you at the show, both existing customers as well as new faces!

Some of the coins that found new homes were an 1823/2 quarter in VG-8 PCGS, an 1831 B-7 quarter in VF-30 NGC, 1797 13 star half dime, 1830 LM-11 half dime, several tough S-mint Seated dimes, an 1804 B-2 quarter, some high-grade Bust quarters, an 1852/1852 quarter with rotated reverse (only 3 known), a high-grade 1862-S quarter, an 1866 business strike quarter, some high-grade Bust halves, mid-grade 1842-O

New Coins

1856 Dollar Reverse

Bust Half Dimes - - 37 new coins (newps), incl. 1792 half disme, 1797 13 stars, 1830 LM-10, 1833 LM-2.
